Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/23/2006 has been entered.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-2, 6, 8-10, 15, and 21-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites "limiting means for limiting the passage of fluid" in the second to last indent of the claim. It is not clear how this "means" relates to the previously recited "limiting means for limiting leakage". It is not clear if it is the same means or an additional means. If the means are the same elements, the second and any further recitation should recite "said limiting means".

Claim 1 recites "wherein one of the secondary chambers (16) communicates with a complementary chamber (24) via at least two holes (25), which complementary

Art Unit: 3683

chamber (24) contains an air volume (31) and is connected (27; 28; 29; 33) to the other secondary chamber (15) such that the high viscosity fluid circulates freely between the two secondary chambers (15, 16)." It is not clear from the claim language which chamber "is connected (27; 28; 29; 33) to the other secondary chamber (15)".

Regarding claim 21, it is not clear how the limitations are intended to further define the "means for limiting leakage" of claim 1. Note that substantially all the limitations of claim 21 are already recited in parent claim 1.

Claims 27 and 31 both recite "a longest longitudinal dimension" but fails to relate this dimension to anything. It is not clear what the limitation is intended to convey.

Claim 28 recites "the complementary chamber (24) containing an air volume (31) and connecting (27; 28; 29; 33) to the first secondary chamber (15) such that the fluid circulates freely between the two secondary chambers (15, 16)." It is not clear how the secondary chambers can be connected by the air volume as required by the claim.

Response to Arguments

Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

Allowable Subject Matter

Claims 1, 6, 9, 15 and 21-31 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
